

**AADE NTCE, Technical Agenda
Wednesday, April 1st 2009**

Room Location	Technical Session No.	Time Slot	Abstract Title	Author Details		Company
				Last Name	First Name	
Room Location	Technical Session No.	Time Slot	Student Poster Contest	Author Details		University
HEC C	SP	1:00 PM	SP #1 Exploratory Gas Well Design	Maria E. French & Samrat R. Mahato		Louisiana State University
		1:20 PM	The Big Crew Change: Industry-Proven Practices for Maintaining Readiness	TBD		Nicholls State University
		1:40 PM	Improving the Efficiency of Rheological Engineered Drilling Fluid used for Coiled Tubing Drilling in the North Slope of Alaska	Chukwu Ekene		University of Alaska, Fairbanks
		2:00 PM	BREAK			
		2:05 PM	Engineered Arctic Well Design Sequence and Failure Prognosis	Kasper Kowalewski		University of Alaska, Fairbanks
		2:25 PM	Experimental Investigation of Drilling Fluid Invasion	Zachary Toothman		West Virginia University
		2:45 PM	Effect of Additives on the Porosity and Permeability of Cements	Sam Ashley		West Virginia University
		3:05 PM	BREAK			
		3:10 PM	Heavy Foam for Deepwater Drilling	Chunlei Liu		University of Louisiana at Lafayette
		3:30 PM	Experimental study of Fluid-loss Additives for HTHP Drilling Wells under Dynamic and Static Condition for Different Flow Regimes	Foad Ahmadi Fard		University of Louisiana at Lafayette
		3:50 PM	A Review of Drillstring Design, Failure and Enhancing Features	Mahdi Mahmoudi Eshkaftaki		University of Louisiana at Lafayette
		4:10 PM	Effectively Fracturing the Marcellus Shale Formation	Z. Voithofer, C. Gardiner, H. Erb		Marietta College
