

2009 AADE NTCE Technical Agenda

Thursday, April 2nd 2009

Room Location	Technical Session No.	Time Slot	Abstract Title	Author Details		Company
				Last Name	First Name	
HEC C	17	8:00 AM	Step Change in Performance improvement in Piceance Creek	Celis	Alexander	Schlumberger Drilling and Measurements
		8:20 AM	CRI Bakken Well Design History - Short radius re-entries	Renard	Bobby	Continental Resources
		8:40 AM	The Use of Ultrasonic Devices in Casing Recovery Operations in the Gulf of Mexico	Donovan	Glenn	Shell E&P Americas
		9:00 AM	BREAK			
		9:10 AM	Optimization of Brazil Onshore ERD wells through the use of RSS and Real Time Monitoring	Burgos	Elias Chamat	Schlumberger - Drilling & Measurements
		9:30 AM	Drilling Dynamics for Deepwater Gulf Of Mexico Salt Drilling	Leavitt	Tony	Schlumberger - Drilling & Measurements
Magnolia	18	8:00 AM	Cases Studies of Mesophase Technology Employed for the Remediation of Cased Hole Completions	Peresich	Robert	Baker Hughes
		8:20 AM	A Case History to Show How to Define a Customized Process for Lost Circulation Prevention and Control Based on GeoMechanics Analysis	Wang	Hong (Max)	Halliburton
		8:40 AM	4.1 SG Barite: Current Application Status and Future Possibilities	Fraser	Lindsay	M-I SWACO
		9:00 AM	BREAK			
		9:10 AM	Use of magnetic nanoparticles for smart drilling fluids	Lee	Jung-Kun	University of Pittsburgh
		9:30 AM	Using Nanoparticles and Nanofluids to Tailor Transport Properties of Drilling Fluids for HTHP Operations	Agarwal	Sushant	West Virginia University
Marlborough A+B		8:00 AM	Student Section Workshop: "How to get in and what to expect as a technical professional in the industry"			
HEC C	Plenary 3	10:00 AM	Global Climate Change & Impacts on the Energy Industry
