The President Speaks

By Jim Vernor

Our February meeting featured presentations by Cooper Cameron and EnSCO. The presentations were interesting and gave insight into anticipated activity levels for the remainder of the year. Our thanks to the speakers for a job well done.

The March meeting will be held at City Place on the 19th. Our speaker will be Richard Glass with Pathfinder on latest innovations in directional LWD and MWD. Please call the reservation number 1-800-221-4826, ext. 3778 and make your reservations. As stated before this really helps in our planning for meals with City Place. There will not be a meeting in April, as the National AADE Tech Forum will be held in Houston on April 1-3 at the Radison Astrodome Hotel. Make plans to attend if you can. A lot of people have worked real hard to ensure the event has quality papers and exhibits. Registration and technical subjects can be found at the National Website www.aade.org. The web site is also current on the DFW Chapter information, excluding this newsletter.

Of interest from the February board meeting was a report on the inaugural meeting of the Alaska Chapter. This meeting was an Operators Forum and they had 78 members in attendance. Our chapter is the second largest and we average slightly less than 78 attendees per meeting. We can do better, so bring a guest to the next meeting.
