Mark Thomas is BHI's - Business Development Manager for our Reservoir Navigation Services in North America

The talk will be on the advantages of utilizing LWD technology for wellbore placement to geo-steer specifically in major gas plays in North America. He will talk specifically about the log suites we are currently using and have used in each basin to navigate. The gas plays we will highlight will be as follows:

**Haynesville Shale, Fayetteville Shale, Woodford Shale (Western and SE Oklahoma), Granite Wash, Marcellus Shale**

Mark will also touch on geo-steering in thin sands and how critical it is to use LWD technology and Reservoir Navigation Services.
