

AADE National Fluids 2022
THE PREMIER TECHNICAL CONFERENCE AND EXHIBITION
University Student Poster and Presentation Contest

As part of an ongoing effort to attract and educate students about the drilling industry, the AADE is hosting the 2022 University Student Contest during the AADE National 2022 Fluids “The Premier Technical Conference and Exhibition” which will be held April 19-20, 2022, at the Marriott Marquis in Houston, Texas. This is a great opportunity for students to present their research or summer internship work to the industry.

On behalf of the AADE National Technical Conference Steering Committee, we would like to invite your company to partner with the AADE in helping bring these talented students to the conference through one of the following sponsorship levels:

- **Roughneck** - \$1500 sponsorship
- **Derrickman** - \$3000 sponsorship
- **Driller** - \$5000 sponsorship
- **Individual sponsorship**
- **Open Donation**

Your generous contribution will be recognized in the conference program, in the AADE newsletter, and prominently displayed at the conference and during the student awards at the conference luncheon.

Several years ago, the “University Program” began with students from 10 U.S. universities. Students at the 2003 AADE National Technical Conference presented 10 posters highlighting their petroleum research. For this year’s conference we have invited over 25 global universities to participate in the AADE National 2022 Fluids Technical Conference.

Your sponsorship helps as all students are afforded free admission to the conference regardless of their participation in the poster and presentation sessions in order to view presentations and interact with industry experts. The students that are selected to present at the conference will have their travel expenses (airfare and hotel) paid 100% by the AADE and this is why your sponsorship is so important for our event. We want to make it possible for as many students to attend this growing event as possible.

In order to qualify for their presentation at the conference, students must meet the following guidelines:

Students must be:

- A current student and in good standing academically in their respective department
- A member of the AADE student section at his/her college
- Agree to make a presentation and a poster highlighting their drilling-related research or topic.

Please feel free to contact us or any representative of the steering committee to make your partnership commitment today. I would like to personally thank you in advance for helping make the AADE “University Program” possible.

Sincerely,

Jessica Paola Ramirez
