

RSVP Today for AADE/SPE Meeting on Tuesday, November 8

Toralde of Weatherford will Discuss "Deepwater Managed Pressure Drilling and Well Drillability, Efficiency and Process Safety"

AADE will join with the local SPE chapter for its distinguished lecturer's series for November and December as both will be drilling-related topics. *Please note that the day for the November and December meetings will be different, and registration will be handled through the SPE website.*

Please join us from **11:30 a.m. to 1 p.m. Tuesday, November 8** at the Petroleum Club of Lafayette for the joint industry event.

Julmar Shaun Sadicon Toralde of Weatherford will discuss "Deepwater Managed Pressure Drilling and Well Drillability, Efficiency and Process Safety."

The cost to attend will be \$25 for members and non-members who register before November 7 and \$30 at the door. **>>PLEASE REGISTER ON THE SPE WEBSITE**

MORE ABOUT THIS PRESENTATION: Adoption of managed pressure drilling (MPD) technologies of the applied surface backpressure type in deepwater environments have mainly involved a rotating control device (RCD) to create a closed drilling system where flow out of the well is diverted towards and backpressure regulated using an automated MPD choke manifold with a high-resolution mass flow meter that increases sensitivity and reaction time to kicks, losses and other unwanted drilling events. This integration of MPD equipment into floating drilling rigs to provide it with MPD capabilities, including the capacity to perform pressurized mud cap drilling (PMCD) and riser gas mitigation (RGM), has

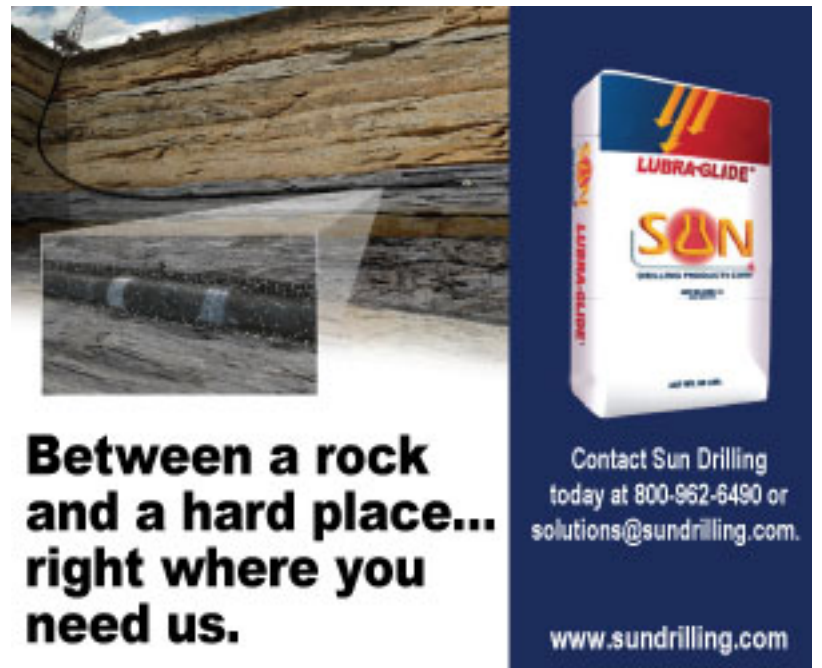

not only produced improvements in terms of drillability and efficiency, but most importantly, in terms of process safety. He will offer case histories on how MPD has performed in the presentation.

CLICK TO REGISTER FOR THIS EVENT ... BEFORE NOVEMBER 7

October Topic Focuses on Going Back to Basics

Gator Johnson, center, came to discuss Chesapeake's Haynesville success at the October AADE meeting in Lafayette. It was an informative and enjoyable event! Here, he stands with AADE President Kristy Bonner, left, and First Vice President Jerred Clark. The event was well attended.

Between a rock and a hard place... right where you need us.

AADE 2016-2017 Officers

- President: Kristy Bonner, Foster Marketing
- First Vice President: Jerred Clark, Petro Quest
- Second Vice President: Taylor Brazzel, Chalmers, Collins & Alwell, Inc.
- Secretary: Jarrod Suire, Cardno PPI Quality and Asset Management, LLC
- Treasurer: Sharon Moore, Halliburton

MARK YOUR CALENDARS!

AADE will join with the SPE chapter for its distinguished lecturer's series for November and December as both will be drilling-related topics. Please note that the day and time for the November and December meetings will be different and registration will be handled through the SPE website.

11:30 a.m. to 1 p.m. Tuesday, December 6

William L. Koederitz of GK Plus Innovations LLC will discuss "Lessons Learned, How NOT to Do Drilling Automation." Petroleum Club of Lafayette. **The cost to attend will be \$25 for members and non-members who register before December 5 and \$30 at the door and \$10 for students who pre-register and \$15 at the door.**

>> PLEASE REGISTER ON THE SPE WEBSITE

MORE ABOUT THIS PRESENTATION: The uses of automation in the drilling process are expanding and are typically resulting in improved drilling performance. However, many of these projects struggle in the initial stages, often trying to overcome a common set of hurdles. Many of these hurdles are not technical challenges, but instead are related to people issues and the methods for implementing the solutions. This presentation covers the basics of drilling automation and describes the problems and solutions that have been found to improve the startup success for drilling automation.

IDEA TO TAKE AWAY: For automation to be successful, the key users, especially the driller, must be involved in every step of design and implementation. **PLEASE REGISTER BEFORE DECEMBER 5.**

AADE Call for Papers - 2017 National Technical Conference & Exhibition

The National American Association of Drilling Engineers will host the 2017 AADE National Technical Conference and Exhibition, "Emerging into a New Dawn," covering subjects considered to be improvements and innovations in drilling operations.

This conference will be of interest to major and independent operators, service companies, drilling contractors and equipment and materials manufacturers. Those interested in submitting a noncommercial technical paper and making a presentation are invited to

TURBO-CHEM[®]
INTERNATIONAL, INC.

RENEW YOUR AD TODAY!

The AADE Lafayette Chapter publishes a monthly newsletter called the Lafayette Driller to share news and information about upcoming events with its membership.

If you'd like to place an ad and support AADE's ongoing efforts, **please email us.**

The following ad sizes and rates are for inclusion in all nine AADE Lafayette Driller issues for the session.

- Leaderboard (728 x 90 pixels) \$400
- Skyscraper (160 x 600 pixels) \$300
- Medium rectangle (300 x 250 pixels) \$200
- Small rectangle/business card (300 x 150 pixels) \$100
- Logo button (150 x 150 pixels) \$100
